# Rear Projection SMART Board™ 3000i

Interactive Whiteboard

## Interactive

Touch the screen to access computer-based material.

## Intuitive

Work naturally at the Board without special tools.

## Innovative

Combine rear projection with a sleek, space-saving design.

## Integrated

View a clear, sharp image from the included projector.

## Intelligent

Add a laptop and control it directly from the Board.

The *Rear Projection* SMART Board 3000i is an interactive whiteboard that turns your computer into a powerful presentation and collaboration tool. The sleek, tapered cabinet fits into a variety of room settings, comes with an integrated projector and includes space to hold your computer.

With your computer image displayed from behind the Board, you can work naturally without any distracting shadows. The 3000i is powered by award-winning SMART Board™ Software, the most user-friendly, feature-rich interactive whiteboarding software available.

With the *Rear Projection* SMART Board 3000i, you simply touch the screen to access computer-based materials. You can pick up a pen to write notes or annotate over top of applications. You can even easily add a guest laptop and control it directly from the Board. You'll impress your audience with the ease and clarity with which you can present all your multimedia.

Front View

\*Not Included

**Streamlite™ Design** – only 29 1/4" deep with a tapered shape that easily fits into corners

**Integrated Projector** – True-XGA (1024 x 768) resolution, easily accessible projector controls on front of cabinet, full-function infrared remote, SMART Bulb Saver for extended bulb life

**Mobile Cabinet** – four locking casters allow cabinet to be rolled from room to room and secured in place. Key locks keep computer and peripherals secure.

**Rear Connection Panel** – for peripherals to be attached to the projection system and/or computer, such as second projector, external audio, network, printer and other serial device

**SMART Board Software** – powered by SMART's award-winning interactive whiteboarding software

**SMART X-Port™ 10 Switch** – toggles connections for data, video and audio between the internal computer and a laptop

**Video Camera Platform** – top of cabinet holds a video camera

**Laptop Support** – shelf mounts on either side of cabinet and cables provide easy connection

**SMART Pen Tray™** – optical sensors detect when a stylus or eraser is being used (Whisper-tip™ styluses and eraser included)

**Audio System** – supports multimedia and enhances the sound from computers and other audio inputs such as a VCR

**Wireless Keyboard** – Windows® standard keyboard controls the internal computer from any location in the room. Holder provided on side of cabinet.

**SMART Super Screen** – diffusion screen with a matte finish that significantly reduces ambient light reflection and glare

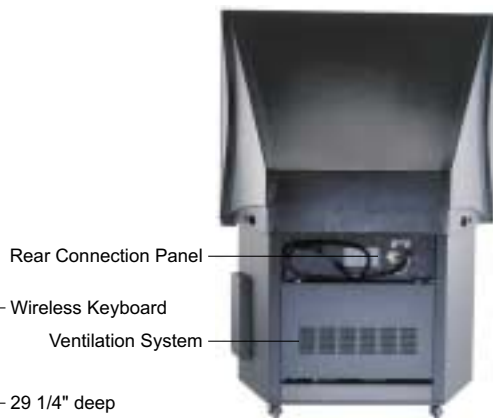

**Requirements**

A Windows or Macintosh® computer with a standard serial connection
